

Hi Everyone-

We are all somehow returning to and/or reimagining our lives. Daneen is missed and she is loved. It is clear she lived well and now we can say she died well too. Carry her with you into your lives. I keep singing her song "My friends are all I am...."

Details are still emerging — especially as we think about folks traveling and gathering safely — but if you haven't yet and would like to, please sign up for e-mail updates and details on Daneen's Life celebration [HERE](#)
